

FF57 Hawker Hurricane building notes from James Weber

Hi Ann and Dave,

Enclosed are pictures of my latest build the Hawker Hurricane, kit # FF57.

1. Fuselage airframe and first 3 inches of wings covered in 1/32 balsa.
 2. Wings and tail surfaces covered in white poster board.
 3. Prop made from 2 each 10 inch props cut and surgically installed into spinner. ("Surgically" yeah right!!)
 4. Exhaust stacks made from large drinking straws. Tires, 2 3/4" duo-bro.
 5. Air scoop made from scrap balsa.
 6. Cannons made from wooden dowels.
 7. Canopy made from 1/8" plywood.
 8. Wheel pants from 1/8" balsa covered sides with poster board.
 9. Paint is WalMart spray can "Brown Boots" and creamcoat "Christmas Green".
- Decals by Callie Graphics.

This plane was a joy to build just like the SE-5. You keep making them. I'll keep building them. - Jim Weber
