

Cheap Bobby Socks for your Iron

By: Doc Ferguson, docferg@charter.net

Commercial socks for covering your iron can be a bit expensive. I found a great substitute and they work great. The heat travels rather quickly so you will need to test your iron's heat.

Substitute baby socks, Bobby Socks size 0-6mos are the perfect size for most irons. Simply slip on the sock and cut a small hole for your heat dial. You could also tie the end. I have not found that necessary.

Cut hole in sock. 0-6mos
